-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 24 January 2007.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## DETAILED ACTION

### *Claim Rejections - 35 USC § 102*

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1 and 9/1 are rejected under 35 U.S.C. 102(b) as being anticipated by Balas et al. EPO #348,137 A2.

3. Balas discloses (see Figure 5) a housing including flame effect means 41, light source 30, and screen 39 through which light is transmitted from the housing. Light from the light source passes through the flame effect means onto reflector 36, back through the flame effect means and onto the screen. The light passes through the screen at all levels. The flame effect means is considered to be movable since it can be moved.

4. Claims 1 and 9/1 are rejected under 35 U.S.C. 102(b) as being anticipated by Schlett, US #2,285,535.

5. Schlett discloses a housing (Figure 2) including flame effect 36, 44, light source 23, and reflector 38. Light passes through flame effect 44, bounces off reflector 38, through flame effect 36, and onto screen 15. The light passes through the screen at a number of different levels, as shown in Figure 2.

***Allowable Subject Matter***

6. Claims 2-8, 9/2, 9/3, and 9/8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

***Response to Arguments***

7. Applicant's arguments filed 1/24/2007 have been fully considered but they are not persuasive.

8. Regarding Balas, Applicant argues that the flame effect means must remain stationary during operation. This argument, however is much narrower than the instant claim language, which requires the flame effect means to simply be "movable." The flame effect means of Balas is considered to be movable in that it may be moved. Applicant's arguments regarding the operation of the device are not supported by the claim language.

9. Regarding Schlett, as discussed in the rejection, the flame effect means has two parts: 36 and 44. The light passes through one first, and then the other.

***Conclusion***

10. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

Art Unit: 3611

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
